

QUALITY POLICY

Zetech University aspires to be the best university in the world in research, innovation, knowledge creation and dissemination.

Our commitment is to provide holistic higher education by promoting excellence in research, integrating innovation and technology in learning with the aim of developing well rounded citizens to impact the social, political and economic world in compliance with ISO 9001:2015 Quality Management System.

In pursuit of this, the University shall endeavour to meet and exceed needs and expectations of all interested parties as reflected in our vision and mission and guided by our core values.

The university has established quality objectives in line with the strategic plan which shall be cascaded down to guide in development of departmental quality objectives. The university quality objectives shall be reviewed as the per management review meeting schedule.

The university quality policy shall be communicated throughout the university using all the available channels of communication.

The university is committed to ensure effectiveness and continual improvement of the quality management system.
