Innovation & Technology: Zetech University introduces three new programmes.

Student Experience: Zetech University Students win top award at the CUE Conference. A glimpse of the Zetech Finalist Dinner and Campus Hangout.

Sports: Zetech University Rugby Team 'Zetech Oaks' crowned KRU Champions.

The finalist dinner take a moment to capture a photo to commemorate their day as they await to graduate.

The Launch of the Postgraduate Programmes in Computer Science & IT

Zetech University on 7th August 2024 launched three new postgraduate programs – Doctor of Philosophy (PhD) in Computer Science, Master of Science in Computer Science and Master of Science in Information Technology at the Technology Park Mang'u Campus, in an event that brought together key stakeholders in the Technological space, including Microsoft ADC MD Catherine Muraga and Kiambu Deputy Governor, H.E. Rose Kirika.

Prof. Njenga Munene, Zetech University Vice Chancellor while opening the event noted that, "The programmes have been meticulously designed and rigorously evaluated, culminating in their recent approval by the Commission for University Education (CUE)."

Prof. Njenga also further remarked that the achievement comes right on the month that Zetech University is celebrating the 2nd Anniversary as a fully chartered University.

Intakes in January, May & September

INVENTING THE FUTURE

With the introduction of the new courses, Zetech University is poised to be the market leader in technology, ensuring that the students are equipped with the knowledge and skills needed to thrive in a rapidly changing global landscape. Echoing the sentiments of the Vice Chancellor, Zetech University Deputy Vice Chancellor, Prof. Alice Njuguna said that, "At Zetech University we first identify what the problem is in the market, then rethink the solution with the help of the industry stakeholders looking at the international standards before introducing a course."

Zetech University Wins Top Award at CUE Conference

By Sharon Nyambura - Student, Communication and Media Studies

Zetech University's impressive performance at the just concluded Commission for University (CUE) conference at KICC on 14th June 2024 was underscored by their exhibition booth, which earned the institution the second runner-up position in the highly competitive Best Exhibition Booth category, in a fete that saw all universities present their tech prowess at the 4th Biennial Conference on Research and Innovation themed, "Catalysing Systemic Social Transformation through Research and Innovation".

"Looking ahead, Zetech University aims to build on its recent successes by further enhancing its technological capabilities and expanding its innovative programs. The institution plans to introduce new courses, in the PhD in Computer Science and Msc in Computer Science & IT." Zetech University Vice Chancellor, Prof. Njenga Munene noted at the institutions Annual Stakeholders Meeting last week.

As Zetech University continues to innovate and inspire, it remains committed to its core mission: to impact society through research-driven education that integrates innovation, technology and entrepreneurship.

Annual Stakeholder Meeting Showcases Commitment to Excellence and Innovation

By Vivian Machimbo - Attaché, Public Relations Department at Zetech University

On June 15, 2024, Zetech University hosted the annual stakeholder meeting at the Technological Park Mang'u campus, drawing thousands of stakeholders, including guardians and parents. The event, characterised by insightful discussions and notable achievements, underscored the university's dedication to excellence, transparency, and accountability in education. Professor Njenga Munene, the Vice Chancellor of Zetech University, set the tone with a compelling address that resonated with the audience, emphasising the university's role in equipping students

with the skills and knowledge to thrive in today's competitive job market.

"Recently, Zetech University got a total of 1703 students from Kenya Universities and Colleges Central Placement Service (KUCCPS) making the University the **third most preferred private University in Kenya.**" The Vice Chancellor remarked.

A panel session moderated by Director of Corporate Affairs and Marketing, Mr. John Mwai, vividly explained the key initiatives and strategies implemented by the university.

CHRP Lilian Ngala, Group HR Director of Diamond Trust Bank (DTB), noted that, "Zetech University stands out as a centre of excellence in technology and innovation in Kenya, celebrated with numerous accolades. The University's robust partnerships with leading global institutions offer students unparalleled exposure, ensuring they remain competitive in today's job market." She further promised 20 internship slots to Zetech University students.

CHRP Jemimah Ngode, Group HR Manager of Radio Africa Group in her remarks highlighted that Zetech students are well-trained, knowledgeable and of high discipline as observed in the marketplace.

The stakeholders' meeting saw a multifaceted tripartite education model, going beyond academia, industry and government by bringing in parents, and guardians.

Zetech University Champions Climate Action with Tree Planting Initiative

By Lizzier Wanjiru - Student, Communication and Media studies

Zetech University commemorated World Environment Day with two significant events. On June 8, 2024, Mang'u Campus hosted a tree planting event by the Vice President Endorsee of the LEO International Club, Dr. Manoj Shah. Earlier in the week, on June 5, 2024, Zetech University collaborated with the Kiambu-Ruiru Sub County government to celebrate the day under the slogan 'Mazingira Bora, Maisha Bora.' This initiative aligns perfectly with Zetech University's role in combating climate change and promoting a greener earth, directly supporting the United Nations Sustainable Development Goal (SDG) 13, which focuses on climate action.

The university's efforts increased the total number of trees planted on its campuses from 763 in 2023 to an impressive 1,678 in 2024. This achievement not only enhances the campus environment but also contributes to global reforestation efforts, a critical component in the fight against climate change.

Through these actions, Zetech University exemplifies its commitment to environmental, social, and governance (ESG) goals, particularly in environmental sustainability.

Zetech University Hosts Pivotal Women Empowerment Event

By Vivian Machimbo - Attaché, Public Relations Department at Zetech University

On July 19, 2024, Zetech University hosted an impactful event titled "Women Empowerment (EmpowerHer): Navigating Growth and Work-Life Balance".

"Zetech University champions the transformative power of education. Empowering women is not just a societal duty but a moral imperative. By facilitating a platform for women to exchange experiences and insights, we are paving the way for a more promising and equitable future," stated Prof. Njenga.

He emphasised the necessity of initiatives like these in establishing a supportive network that encourages women to pursue their ambitions without constraints.

6th Sustainable Innovations Conference & Innovation Week

In a fete that brought together key players in the research, academia, government and industrial sectors, Zetech University's Research and Innovation Week underscored a commitment to exploring and harnessing the potential of Artificial Intelligence (AI) to drive sustainable development and create a more resilient and circular economy.

Themed "Innovate, Disrupt, Regenerate: Unleashing the Transformative Power of AI for a Circular Economy," the conference featured discussions on diverse fields that could harness the power of AI and green skills to create a sustainable, equitable, and circular economy.

Opened officially by former Cabinet Secretary Investments, Trade and Industry, Rebecca Miano, EGH, the Research and Innovation Week and Conference is a testament to the university's alignment with the United Nations (UN) Sustainable Development Goal (SDG) 12 on Sustainable Consumption and Production, and SDG 17 in advancing science, technology, and innovation for sustainable development.

Boost to Transport Sector as Zetech University unveils Solar-powered TukTuk

The transport sector has received a major boost after Zetech University came up with an electric powered tuk-tuk, presenting a significant step towards radically improving the sector and reducing carbon emissions.

Zetech University Lecturer Prof. Gitau Kamau said the engineless tuktuk runs on electric motors and has rechargeable batteries that could last for more than 100 km and that it also has solar panels integrated across its roof to harness solar energy which charges the batteries.

He said it is built like other tuktuks though it is faster with a speed of over 60 km/hr but it's priced slightly higher than the normal tuktuks at Sh450, 000.

"We have assembled the tuktuk, put in electric motors and solar panels to recharge its batteries once they get drained. It is noiseless, cost effective and clean," said Prof Kamau during Zetech University's Research and Innovation week.

Recently, former Investment, Trade and Industrialization Cabinet Secretary Rebecca Maino said the country expects to have moved fully towards the use of electric buses by 2027 in line with the government's agenda of transforming the transport sector through the reduction of carbon emissions to address the negative effects of climate change.

Men's mental health: 'Man up' is not the answer

By Lizzier Wanjiru - Student, Communication and Media studies

On July 11th, 2024, Zetech University advanced its mission to shape the future by hosting a pivotal mental health event focusing on the boy child. The event was to "Embrace the Men's Moment," this title aimed to raise awareness about men's mental health and the importance of emotional expression.

The orator of the day, Mr. Atanda Oluwa Femi, addressed an unexpected audience of both males and females. He began by explaining the theme of the event, "Breaking the Silence."

"He emphasised that "men can cry," challenging long-held societal norms that discourage men from showing vulnerability. Surveys from around the world find that males everywhere are reluctant to talk about their mental health and are more likely to die by suicide than females.

Atanda shared his personal life story, highlighting the significance of self-expression for men. He pointed out that while the Girl Child

Empowerment movement has been in the spotlight since the 19th century; societal norms, cultural expectations, and stigma have continued to silence men.

"It was at the point when I spoke out about my situation that I got help concerning my homelessness," Atanda revealed, illustrating the transformative power of speaking up.

Carson Anekeya: Zetech University Student and Mental Health Advocate

By Lizzier Wanjiru - Student, Communication and Media studies

Carson Anekeya, is a Zetech University Student pursuing a Bachelor of Science in Media and Digital Communication, specialising in Public Relations.

As a passionate Mental Health Advocate and a writer, Carson uses storytelling to raise awareness on mental health. His advocacy work includes; article writing and leveraging social media platforms to empower, educate and inspire against stigma-related mental issues.

Follow Carson Anekeya's blog via the link below:

John Von Neumann University & Zetech University Explore Collaborative Opportunities

On September 6, 2024, Zetech University hosted a delegation from John von Neumann University, Hungary. The visiting scholars, Prof. Dr. Judit Olah, Head of the Doctoral School, and Prof. Dr. Jozsef Popp, an expert in International Relations from the same institution, met with Zetech University's Vice Chancellor, Prof. Njenga Munene. The courtesy call was a significant step towards exploring and establishing a partnership.

The meeting sought to discuss potential areas of collaboration and to lay the groundwork for a formal MOU in Student Exchange Programs, joint research initiatives & exchange of academic info. and materials.

WEB3.JS Africa Campus Tour at Zetech University

On September 16th, 2024, Day 28 of the Web3.js Africa Tour saw an exciting stop at Zetech University, Ruiru Campus. The event brought together students, developers, and tech enthusiasts eager to dive into the rapidly evolving world of blockchain and decentralised technologies.

Participants had the chance to learn directly from the code repository shared by the facilitators, available on GitHub

The energy in the room was palpable, as attendees engaged in discussions and explored practical coding exercises. For those who missed out or want a recap, the full workshop recording is accessible on YouTube. It was a day of learning, innovation, and embracing the future of technology.

Zetech University lauded for Student Tech initiatives at Microsoft ADC Campus Tour

By Lizzier Wanjiru - Student, Communication and Media studies

On 3rd September 2024, Zetech University was the stop for the ongoing Microsoft ADC Campus Tour. The candid tech talk event brought together stakeholders and tech gurus in Kenya and the world, in efforts to build a global tech talent pipeline, and as Microsoft put it 'tech giants need to start in the classroom!' Mr. Joe Dadzie, Vice President, Product Management at Microsoft at Seattle, USA, at the event explained, "Some of the resources Microsoft has been sharing with students include the; Cloud skills challenge, free student certification programmes, Microsoft Learn student ambassadors around the institutions of higher learning, the imagine cup, an idea that helps students bring their unique tech solutions to life, Azure for students and Azure AI text analytics demo, power platform user group Kenya, the game of learners, educator developer blogs among many other exciting opportunities!" Remarked the Vice President at Microsoft. The students got a chance to network, ask questions, share & exchange ideas with Microsoft ADC tech practitioners.

Kelvin Kang'ethe: Zetech University Student at the FIRST Global Robotics Challenge in Athens, Greece

By Lizzier Wanjiru - Student, Communication and Media studies

It was a proud moment for Kenya as Kelvin Kang'ethe, a Computer Science student from Zetech University, stepped onto the global stage to represent his country at the FIRST Global Robotics Challenge (IFCA) in Athens, Greece from the 26th to 29th of September 2024. The FIRST Global Robotics Challenge brings together teams from over 190 countries, each tasked with solving engineering challenges designed to address real-world issues. Kelvin, showcased a robot they built to tackle the competition's sustainability challenge, which focuses on creating solutions for environmental conservation, sustainability and innovation.

The Vice Chancellor Zetech University, Prof. Njenga Munene, noted "Kelvin's participation represents the institution's broader mission to empower students to excel in the rapidly evolving tech world, with Technology standing out as a main pillar in the University's recent success. The university has been increasingly involved in international collaborations and competitions, encouraging students to push boundaries and engage with global technological developments.

Zetech University Leadership Shapes the Future of Innovation at 41st IASP Conference

On 26th September 2024, Zetech University's Vice Chancellor, Professor Njenga Munene, and Deputy Vice Chancellor, Prof. Alice Njuguna, were among key leaders attending the prestigious 41st International Association of Science Parks (IASP) Conference at the cutting-edge Konza Technopolis.

Themed 'Demographic Entrepreneurship and Technology' the event brought together an influential mix of global innovators, policymakers, and academic leaders to deliberate on groundbreaking technological solutions and entrepreneurial strategies for the future.

Zetech University's participation in this high-profile conference was a pivotal move toward realising its ambitious objective of

operationalising the Technology Park Mang'u Campus to house Multi-disciplinary Innovations. The institution's leadership is focused on developing an ecosystem where academic research, technological innovation, and entrepreneurial ventures converge to create real-world solutions.

The Konza Technopolis provided the ideal platform for Zetech University to strengthen these objectives. Zetech University's participation in the IASP conference also served as a significant step towards positioning the institution as a leader in cross-disciplinary innovation.

Partnership with ISACA Kenya Chapter to Empower Future IT Leaders

Zetech University has taken a significant step toward enhancing its academic offerings and student support by exploring a partnership with Information Systems Audit and Control Association (ISACA), a global leader in IT governance, risk management, and cybersecurity. The meeting held on 11th September 2024, and chaired by the Deputy Vice Chancellor for Academic Research, Extensions, and Student Affairs, Prof. Alice Njuguna aimed to outline the mutual benefits of this collaboration and establish a roadmap for future engagement. The partnership presents a range of opportunities for both students and faculty at Zetech University. One of the most exciting aspects of the collaboration is the variety of training programs offered by ISACA.

These include specialised sessions on emerging technologies and IT fundamentals tailored for fresh graduates, as well as customised training designed to meet the unique needs of students and staff. Additionally, ISACA will provide training specifically aimed at non-IT professionals, such as board members, ensuring that a broader audience within the university can benefit from this partnership. As the world becomes increasingly reliant on technology, this collaboration stands as a testament to Zetech University's commitment to providing high-quality education and support for its students.

Zetech University joins RUFORUM: A New Chapter in Education & Research

Zetech University has marked a significant milestone in its international outreach by becoming a registered member of the Regional Universities Forum for Capacity Building in Agriculture (RUFORUM) Network. Zetech University's inclusion in this esteemed network was officially recognised at the 2nd RUFORUM Triennial Conference, which took place from August 12th to 16th, 2024, at

the University of Namibia in Windhoek. The conference, themed "Operationalising Higher Agricultural Education and Research Ecosystems for Innovation, Industrialisation and Economic Development in Africa: A Call for Action," brought together leading figures in the field of agricultural education and research.

Representing Zetech University at the conference was the Vice Chancellor, Prof. Njenga Munene. His participation underscored the university's commitment to advancing agribusiness extensions, education and research, and highlighted its strategic goal of forging stronger international partnerships. The conference provided an invaluable platform for dialogue on enhancing agritech education ecosystems across the continent, aligning with Zetech University's mission to impacting society through research-driven education that integrates innovation, technology and entrepreneurship.

For Zetech University, joining RUFORUM represents a strategic leap towards expanding its international presence and enhancing its collaborative efforts in research and education. The university's new membership aligns with its goal to grow its network and influence across Africa.

RUFORUM's activities, including networking and coordination among member institutions, resourcing, advocacy, capacity building and community development, resonate strongly with Zetech University's goals.

ZETECH UNIVERSITY IS CHARTERED
AND ISO 9001:2015 CERTIFIED

Z-SPORTS ROUND UP

Zetech University at National Chess Tournament: Joseph Gathogo Leads the Way

As a standout player, **Joseph is set to receive a FIDE rating and a FIDE ID from the International Chess Federation, after securing wins against five FIDE-rated players.** ”

Zetech University recently concluded its participation in a national chess tournament, marking an impressive performance for its debut players. Leading the way, Joseph Gathogo showcased remarkable skills, achieving five points and ranking up to the 4th round.

Joseph tied at position 5 in the under 1700 rating category, open to all, demonstrating his strategic prowess among the competitive field.

As a standout player, Joseph is set to receive a FIDE rating and a FIDE ID from the International Chess Federation, after securing wins against five FIDE-rated players. This significant achievement is a milestone not only for Joseph but also for the Zetech University Chess Club, which continues to grow and nurture talented chess players.

The rest of the Zetech team also performed admirably in their first foray into the competitive chess scene. Dennis Wambui secured an impressive 54th position out of 268 participants, earning 4 out of 6 points.

Morgan Israel and Thomas Mwiruri each scored 3 points, ranking 144th and 163rd respectively, while Rhoda Kerubo finished with 2 points, placing 202nd. With such a promising start, Zetech University's Chess Club aims to build on this success, offering players more exposure to competitive events and fostering a passion for chess. Congratulations to all players for their dedication and sportsmanship, and a special shout-out to Joseph Gathogo for his outstanding accomplishment!

Kiambu County Aquatics Association 2024/2025 Swimming League

The Kiambu County Aquatics Association 2024/2025 Swimming League began with high stakes and fierce competition. Last

season's grand finale ended with a glamorous awards gala at Zetech University, celebrating swimmers, coaches, parents, and officials in style. Supermarlins Swim Club claimed the coveted 15 year rotational shield, donated by Yingfa Swimwear.

Determined to retain the trophy, Supermarlins started the 2024/2025 season strong, amassing 63 medals after the first gala. However, Aga Khan Academy Nairobi led with 70 medals, making it clear the title race was far from decided. Crawford International School followed closely with 66 medals, showing they were ready to challenge for the top spot.

Hydrofit Swim Club (42 medals), Orca Swim Club Kenya (39 medals), and Potterhouse School (36 medals) all showcased their talents, proving they could pose a serious threat. Aqua Shark Fin, Braeburn Swimming Club, Juja St. Peters School, and others also competed fiercely, adding depth to the competition.

The upcoming Level 2 gala on October 5th and 6th at Regis Runda Academy is anticipated as a pivotal moment in the league. With each club giving their best to win the shield, this year's league promised to be a nail-biting, unpredictable contest.

Zetech Oaks Show Off Tenacity at the Kabeberi 7's Division Two Round-up

The fourth leg of the Sportpesa national sevens circuit kicked off on 24th August at the Kabeberi sevens at the RFUEA grounds, Ngong road. This year's leg featured 20 teams in the division two with five pools each pool demonstrating an able capability to compete in the circuit.

The first round featured Zetech University against JKUAT where they won 19-12, while the former division one regulars Mean Machine with a big win against Kiambu rugby of 22-07. Newbies in the division two; Homeboyz rugby made a statement with a 15-00 win over Kenya Prisons. Sigalagala put up an impressive performance to beat Meru RFC 38-00. AP warriors secured a big win over Cooperative university beating them 35-00, enhancing their cup quarter finals target.

Mean Machine picked up their second win of the round two with a 10-05 win against Kenya Prisons. Homeboyz continued with their winning streak with a 47-00 win over Kiambu Rugby. Sigalagala picked up a second win with a 15-07 win against JKUAT. Zetech University also showcased their prowess with a 31-00 win against Meru RFC. Northern Suburbs picked up an easy 28-00 win over Molo RFC securing their second win of the day.

The third round was quite competitive with teams fighting for a slot in the cup quarter finals and the challenge trophy quarter finals. Zetech Oaks went ahead to win the Division two 45-00 against Kabarak University, booking their slot in the upcoming driftwood series.

Zetech University Setting new standards for Sports Scholarship in Kenya with a whooping Sh10 million

In a bid to nurture young talent across the country, Zetech University has committed Sh10 million to offer scholarships to top talents identified in this year's Kenya Secondary Schools Sports Association (KSSSA) games.

The University seeks to provide tailored opportunities for talented Kenyans to pursue their careers while honing their skills in various sports, including rugby, football, volleyball and basketball.

Scholarship smash

(basketball), Zetech Oaks (rugby), and Zetech Titans (football).

"Our aim is to promote sporting activities and nurture students' talents even as we seek to motivate sportsmen and women that sports can be an active source of income. We understand that apart from excelling in academics, there's a need to nurture talents and encourage young people to pursue their passion in sports," he noted.

Sirengo also divulged that the university is developing modern, global-standard sports facilities at its expansive Technology Park, Mang'u campus in Juja, Kiambu County, aiming to elevate sports among students.

He highlighted that sporting activities help learners leave educational institutions with holistic training, better preparing them for the changing job market.

Head of Sports at the University Wycliffe Sirengo stated that officials have been scouting for top talent at the games who could benefit from the University's Sh10 million annual scholarships for higher learning.

According to him, the Sports Scholarship Fund will provide fully-paid academic sponsorship for the best talents. "This is an initiative we have been having yearly. We were inspired by our tremendous win and sports excellence as most of our teams dominate in the sports arena in the country. We have been scouting to pick the best and we can assure the public that the best players at the KSSSA games might end up studying free of charge courtesy of our scholarship kitty," explained Sirengo.

Zetech Sparks finish as Semi-finalists in the 6th Afro- Varsity Basketball Challenge in Kampala, Uganda

Zetech University Sparks emerged as semifinalists in the 6th Afro Varsity 3X3 Basketball tournament, held in Kampala, Uganda, and organized by the Federation of Africa University Sports (FASU). The Sparks kicked off their campaign with a narrow 16-15 victory against the University of Ghana, Legon, in a fiercely contested game. However, they faced a setback in their second match, losing 8-14 to USIU.

Bouncing back, the Sparks secured a commanding 21-8 win against Bugema University and followed it up with an 18-5 victory in a fixed match against the UTBC Seals.

In the quarterfinals, Zetech Sparks continued their winning streak, defeating Victoria University 21-17. Their journey, however, came to an end in the semifinals, where they lost 16-19 to Uganda Christian University (UCU)
